

Library and Student Building

INDIANA UNIVERSITY

ranking tenth

in enrollment among American Universities, has more than 124,000 living graduates and former students. Famous alumni include Ernie Pyle, Wendell L. Willkie, and Hoagy Carmichael. The new Lilly Library contains one of the most valuable collections of rare books and manuscripts in the United States, including more than 100,000 rare books and 1,500,000 manuscripts. The private library of Mr. J. K. Lilly, Jr., of Indianapolis, is regarded as the largest and most valuable gift of its kind ever made to an American University. High quality Globe-Wernicke steel book stacks were chosen for the Lilly Library.

If you are considering a new library, or expanding or modernizing an existing one, consult Globe-Wernicke's free library planning service. Write today for complete information. Dept.

Beautifully built...
and built to last

Whether you're planning a modest library addition or a completely new unit, make sure you're getting the most for your money — take a good look at Standard furniture before you buy. You'll see many of the reasons why it will stay beautiful and sturdy — even after years of heavy-duty use — such as the careful, precise, warp-and-check-free construction, the mortise and tenon joining, the selected northern hard maple woods, hand rubbed to a satin finish.

These are among the reasons why Standard furniture was specified by the New York Public Library, New York, Board of Education, and scores of other institutions.

Make it a point to check with Standard while you're planning. In fact, our planning service, available to you without cost, will be pleased to help.

Why not send for our illustrated 20-page brochure today.

THE STRATEGIC AIR OFFENSIVE AGAINST GERMANY, 1939-45

The first three volumes of narrative by Sir Charles Webster and Dr. Noble Frankland contain a description of strategy, tactics, intelligence, and results. The different views of those in authority upon the matters discussed are described and documented, and the air operations themselves are fully covered. The fourth volume consists of technical annexes and appendices.

Volume I: 500 pages; 21 illustrations; 3 maps
 Volume II: 305 pages; 36 illustrations; 13 maps
 Volume III: 317 pages; 30 illustrations; 13 maps
 Volume IV: 530 pages.

Price each volume \$7.80 postpaid

THE WAR AT SEA, Volume III, Part 2, by Captain S. W. Roskill.

The second part of the third and final volume of Captain Roskill's official history of naval operations during World War II opens with the invasion of Normandy. It continues through the destruction of the *Tirpitz* to the end of the war in Europe, and the operations of the British fleet in the Far East to the surrender of Japan. The final chapter of the book is devoted to an examination of the lessons to be learned from the war, and an epilogue pays tribute to the officers and men of the British Royal and Merchant Navies.

To be published in October, price \$8.40 postpaid

SCHOOLS IN THE U.S.A.

A study made by Mr. and Mrs. David L. Medd, principal architects to the British Ministry of Education, who spent twelve months studying educational building in the United States, under a grant from the Commonwealth Fund.

The authors visited over 200 schools and colleges in 40 states; the study is a personal record of their views and findings, and is in no sense an official commentary on American educational building.

"The perspective and the professional point of view from which these authors have observed the school plant field in the United States make their work of great interest and potential value to educaors, particularly to school plant specialists, in this country." (From the foreword by Lawrence G. Derthick, U. S. Commissioner of Education). 360 pages; 16 illustrations; 205 diagrams.

Price \$2.80 postpaid

**INFORMATION
SCIENTIST**

Our organization is actively engaged in the development of new methods for the dissemination and retrieval of scientific information. We offer an exceptional opportunity for a qualified man or woman on our CITATION INDEX PROJECT—a new approach to bibliographic control of scientific literature (See Science 122: 108-11, 1955). This full-time position carries the responsibility of supervising a staff of clerical and data processing personnel. The individual we are seeking may be a librarian or a scientist. He should have major experience in one or more of these areas: reference, cataloging, indexing, data processing. Send your complete resume including salary requirements to:

Hamilton COMPO shelves put twice the books in your present space

HERE'S HOW COMPO WORKS: This is the normal arrangement of standard size books on a COMPO extending shelf. Everything is accessible as the shelf slides out from the stack. No other library shelf gives you this unique space and time-saving feature.

The simplest, most economical way to gain more space in a library is by installing Hamilton's unique COMPO book shelves. Without adding a single square inch of floor space, Hamilton COMPO stacks give you *at least twice as much storage capacity* as ordinary shelving. They put everything out where it is accessible, handle all types of books, records, films, charts and periodicals—all without clutter.

You simply slide the COMPO shelf out—all books are available instantly. When not in use, the COMPO shelf slides back into the stack out of the way.

Write today for full information on the COMPO book shelves.

From Famed Collections In Baltimore, London, New York

Subject Catalog of the World War I Collection, The New York Public Library, Reference Department, 60,000 entries, 3 volumes. Prepublication Price: \$129.00. (\$164.00 after October 31). This collection forms an outstanding bibliography of the subject, including works in many languages, analytical entries for articles in scholarly journals and thousands of pamphlets.

Library Catalog of the Peabody Institute, 1883 to 1905. 10,525 pages, 13 volumes. \$412.00. This well-known dictionary catalog, a valuable reference guide to older, scholarly literature, is reprinted in a limited edition. This reprint serves as a replacement for the original edition, which has now become brittle with age.

Library Catalog of the Warburg Institute, University of London, 2,000 pages 2 volumes. Price: \$280.00. Central to the development of this collection is the idea that the history of art should be studied in its interaction with other branches of learning, which in turn demand the same elaboration. Available for immediate shipment.

(There is a 10% additional charge on foreign orders.)
